REMARKS:

I sent [REDACTED] a copy of the strawman internal charter which I sent to you a couple of weeks ago. Included a note explaining your interest in doing something like this.

He called me yesterday to say that he had also done some work along these lines, liked what I had done, and wanted to talk about it.

He'll be [REDACTED] all day Thursday this week to talk to the Senior Seminar and plans to stay over night in DC so that he can spend the morning with me Friday. I have both the new FBI domestic charter and the Admin's version of the IC charter to give him (he was interested in seeing both).

I suspect you havent had a chance to look at my strawman, but wonder if there is anything you'd rather have [REDACTED] and I doing, or if you're still interested in the internal charter idea, or if there is something else entirely that you could use some help on. Naturally, I'd like to make the best use of [REDACTED] time while we have him.
